Manage. Control. Communicate.

Scalable, secure infrastructure solutions to meet your business needs.

Extending HD Video to Mobile Devices

LifeSize® ClearSea™

An enterprise-class client/server solution for desktop and mobile video collaboration, LifeSize ClearSea is open and interoperable; users can seamlessly connect to any standards-based video collaboration system or infrastructure solution in seconds. LifeSize ClearSea Server is available as a hardware appliance or virtual machine software and includes a state-of-the-art HD desktop client for PC/Mac and Android / iOS smartphones and tablets.

Multipoint Control Unit

LifeSize® Bridge™

Support intelligent growth of HD video in your organization with unrivaled HD quality, price/performance and flexibility for multiparty video conferencing with up to 48 participants. Our standards-based offering supports any codec, speed, resolution, layout or port without losing capacity or HD video capability.

HD Streaming, Recording, Auto-Publishing

LifeSize® Video Center

The most powerful one button HD streaming, recording and auto-publishing solution. Share critical information with the press of one button. Works best with 220 series HD video communications systems. Supports up to 20 concurrent recordings in 720p30 HD, up to 1,000 simultaneous live streams and 350 simultaneous on-demand streams.*

* Based on testing of LifeSize® 220™ series.

HD Video Collaboration in the Cloud

LifeSize® Connections™

A cloud-based business-class HD video collaboration platform that delivers:

- Seamless HD calling from any PC, Mac or LifeSize endpoint
- 9-way HD video/voice encrypted calling with data sharing (dual stream)
- Auto-configuration of video systems; zero configuration for Mac or PC
- Subscription-based, no upfront capital investment
- Simple deployment without IT expertise
- NAT/firewall traversal, bridging, global directory and management
- Guest invitation capability, up to two guests per call

Video Systems Management Software

LifeSize® Control™

Manage your video communications networks—centrally, reliably. LifeSize Control provides secure, real-time management and workflow, web-based scheduling, on-demand reporting and centralized software upgrades and provisioning. LifeSize Control is open and standards-based to manage heterogeneous video networks.

NAT and Firewall Traversal

LifeSize® Transit™

Complete NAT/firewall traversal solution that enables video calls within and across organizations. Standards-based H.460 and SIP firewall and NAT traversal enables video communications for up to 20 simultaneous 1080p30 calls with standards-based systems. Availability of virtual machine software simplifies deployment and reduces price per traversal.

ISDN Gateway

LifeSize® Networker™

The all-in-one gateway, LifeSize Networker provides complete, cost-effective connectivity for IP to ISDN networks, serial or PRI interface. LifeSize Networker supports up to 8 sites over 1 PRI or 4 BRI to connect all of your LifeSize endpoints, simply.
